10/8/80

My Dear Hal:

Spoke to Lil just yesterday and found out where you were vacationing!

Now listen here young man...a week or so is one thing, but extended days in hospital (any hospital) are definately not in the Guide Michelin.

So - get better and get home and with a charmer like your bride about, I wouldn't take too long!

Seriously good friend, feel better, mend quickly and know that our prayers are with you.

Best Art & Jodi
